I am pleased to recommend Bernadette and the company Callbox. They have consistently worked with a collaborative attitude to ensure all processes are current and achieve all set key performance indicators. Whenever an issue did arise we worked through the issue in a timely and efficient manner so goals remained on target. They have a positive, easy to work with demeanor and strive to exceed performance expectations. I highly recommend their services.

I want to tell you that I am very happy with the work and the performance of the professionals on our campaign. They are some of the best I have seen in your industry. Alex and Ann and the others have been incredible in their energy and the way they have interacted with our future customers. We are delighted with their work!

I have worked with Callbox since Jan 2009. I find them professional, helpful, and reliable. They do a great job of getting our prospects to sign up for a webinar or a face to face meeting. I would recommend them to anyone who needs telemarketing services!

I would like to thank Callbox for their professionalism and Outstanding Customer Service! No company with this economy treats customers as they are unique and important as Callbox does. Xylena Joy Española is one of many customer service representatives who ensures you are taken cared of and follows thru with appointments requested as well as excellent follow up. Xylena is my representative and she is a pleasure to deal with! Keep up the great work Xylena and Thank You!!

Callbox has done an excellent job for us, We have closed their leads and have several more in the pipeline. Many of these new leads were some we did not have in our database. So their list is worthwhile too. Expect the first month be used to fine tune the call list. We had trouble with this. We were somewhat inexperienced choosing the correct SIC codes. I also listened to someone else and lowered the minimum revenue number; disaster. They are effective so make sure they are calling the people in your wheelhouse or you will be smothered with leads you don't want. We gave them a script to capture information important to us so we could determine easily the value of the lead.

I just wanted to write to you guys to say what a pleasure it has been working with you on our outbound lead generation campaigns in Singapore. The professionalism in the setup and execution was second to none. You opened up a number of opportunities that we are now capitalizing on. Well done and thanks!
